DETAILED ACTION

1. This is the second office action for application No. 10/617,730. This application remains 7 claims numbered 1-7. Claims 5-7 were previously withdrawn as being nonelected invention.
2. This application is in condition for allowance except for the presence of claims 5-7 directed to invention non-elected without traverse. Accordingly, claims 5-7 been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 5, lines 14-15 of the specification, the "spring protrusion 13" should be changed to -- the spring protrusion 11 --.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: One major difference over the prior art with respect to claims 1 and 4 is that the slide device having a provisional second spring protrusion formed with the lock piece of the lock mechanism and being located in the neighborhood of the first spring protrusion, the second spring protrusion catching one end of the coil spring provisionally, in combination with other

limitation recited which is not found to be anticipated and rendered obvious the above limitations.

One of the most closest prior art is Sakai et al. (US 5,971,342). Sakai teaches the slide device include locking mechanism having a spring protrusion formed with the bracket and catching one end of the coil spring but fails to teach a second spring protrusion formed with the lock piece of the lock mechanism and being located in the neighborhood of the first spring protrusion so that the second spring protrusion is catching another end of the coil spring provisionally.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan Le whose telephone number is (571) 272-6818. The examiner can normally be reached on Mon. through Fri. from 9:00 AM-6:00 PM.
